People at AMT

At AMT, an interdisciplinary, dynamic team is engaged in research and teaching. In addition to the institute's management, consisting of the institute's director, an endowed professorship and head engineers, the team comprises research assistants and technical and administrative employees (IT, secretariat, technical draughtsman and central workshop). All employees have in common their enthusiasm for the diversity of applications in modern mining and for the special challenges that mining offers with its extreme conditions.

Institute Leadership

Univ.-Prof. Dr.-Ing. Elisabeth Zoëga, geb. Clausen

Institute Director

Contact

Dr.-Ing. Alexandra Eberst

Deputy Institute Director, Academic Counselor, Senior Engineer, Group Lead "Material Characterisation"

Contact

Dr.-Ing. Amir Kianfar

Senior Engineer, Group Lead "Asset Monitoring and Diagnosis“ and "Mine Communication“

Contact

Dr.-Ing. Sebastian Wiele

Academic Counselor, Senior Engineer, Group Lead "Environmental Perception“

Contact

Professor i.R.

Univ.-Prof. i.R. Dr.-Ing. Karl Nienhaus

Univ.-Prof. i.R. Dr.-Ing. Andreas Seeliger

Office

Jessica Krämer

Assistant to the director of the institute

Contact

Tomomi Takahashi-Rattler

Administration
